IN THE PROTECTORATE—*continued.*

The fees paid to the Sheriff and Officers of Court cover all such expenses as cost of paper, preparation and posting up and delivery of notice, hiring, and ringing of bells and the like.

The Court may, in any case, civil or criminal, require a witness's expenses to be paid or secured before issuing a subpoena for the witness.

The travelling expenses of witnesses in all civil and criminal causes shall be allowed according to the sums reasonably and actually paid.

An officer in the Public Service when summoned as a witness, except when summoned by the Crown, is allowed costs and travelling expenses as if he were not in the Public Service, when a witness actually attends for less than one hour, he may be allowed only half costs if the Court thinks fit.

In criminal proceedings the Court may, if it thinks fit, direct repayment of any fees paid.

No fees are taken which would be payable by any public department; but in criminal proceedings such fees shall, nevertheless, where they would ordinarily be payable, be taken as paid for the purpose of assessing any costs which the Court shall direct to be paid.

ALL FEES ARE PAID INTO THE TREASURY FOR PUBLIC USE.

The following fees are paid to the officer or officers concerned :—

POLITICAL FRANCHISE

1927.

LEGISLATIVE COUNCIL.

Under the provisions of the Sierra Leone (Legislative Council) Order-in-Council, 1924, three members are elected to the Legislative Council for a term of five years each, viz. two for the Urban and one for the Rural Electoral Districts.

The Urban Electoral District consists of the City of Freetown (section 4 Cap. 80,) together with the Sherbro Judicial District (Governor's Order of 16th May, 1921).

The Rural Electoral District consists of those parts of the Colony not being within the City of Freetown which are within the Peninsula of Sierra Leone, together with Tasso Island and the Banana Islands.

The electorate is confined to male British subjects, or natives of the Protectorate capable of reading and writing English or Arabic, of twenty-one years of age, having resided for twelve months in the electoral district in which the vote is claimed.

The property qualifications are : in the Urban Electoral District, ownership or occupation of premises of not less than £10 in value, or receipt of a yearly salary of not less than £100 ; and in the Rural Electoral District, ownership or occupation of premises of not less than £6 in value, or receipt of a yearly salary of not less than £60.

No person is capable of being elected a member of the Legislative Council if he is not twenty-five years of age, if he has been dismissed from the Government Service or debarred from practising as a legal or medical practitioner by a competent authority, or is in the public service of the Colony or Protectorate, or is not registered as an elector. The property qualification for a member is the possession of real or personal property of the value of £250 for the Urban and £100 for the Rural Electoral District.

CITY COUNCIL.

Under the provisions of Ordinance No. 43 of 1926, the following Ordinances, viz.—

- The Burials Registration Ordinance, 1924 (Cap. 21)
- The Freetown Fire Brigade Ordinance, 1924 (Cap. 77)
- The Freetown Municipality Ordinance, 1924 (Cap. 80)
- The Freetown Public Cemeteries Ordinance, 1924 (Cap. 82)
- The Freetown Waterworks Ordinance, 1924 (Cap. 84)

were abolished and the administration of the affairs of the Corporation was temporarily vested in a Nominated Municipal Board.

IMPORTS AND EXPORTS

1927.

ALL TABLES RELATE TO THE CALENDAR YEAR.

SUMMARY TABLES.

Table 1 shows the total value of imports from each principal country, including bullion and specie, together with classifications in groups under the four main heads of—

- i. Food, drink and tobacco.
- ii. Raw materials and articles mainly manufactured.
- iii. Articles wholly or mainly manufactured.
- iv. Miscellaneous and unclassified.

A separate column records the particulars in respect of bullion and specie.

Table 2 gives like particulars in regard to domestic exports, and table 3 furnishes similar information with respect to re-exports. Table 4 shows the value of total exports to each country by classes.

DETAILED TABLES.

Tables 9 and 11 show in alphabetical order imports and exports of articles from and to each country

The table relating to imports (table 9) shows separately the "total imports" and imports for home consumption. The total imports include all goods landed and afterwards re-exported. The imports for home consumption include goods entered for use in the Colony at the time of importation and goods cleared for home use ex-warehouse.

COUNTRIES TO WHICH IMPORTS AND EXPORTS ARE CREDITED.

Imports are classified as received from the countries whence they were consigned. These countries are not in all cases the countries of actual origin, since goods produced in one country may be purchased by a firm in another country, and thence despatched, after a longer or shorter interval, to the Colony. In such a case the second country, being the country of last ownership, would be the "country whence consigned."

Exports are credited in the tables to countries to which they are consigned, whether that country possesses a seaboard or not.

METHOD OF ASCERTAINING QUANTITIES AND VALUES OF IMPORTS AND EXPORTS.

The statements of quantities and values are based on the declaration of importers and exporters as subsequently checked by the Customs officials. Where goods are entered by weight the quantities shown as imported (except in cases where duty is charged on the gross weight) and exported represent the net weight exclusive of packages, sacks, casks, etc., in which they may be contained.

The values of imports are exclusive of the amount of duty, and are "c.i.f."; the values of exports are "f.o.b." values, inclusive of export duty.

Imports and exports by parcel post have been recorded under their proper statistical heads in the various classes.

Concessions, Cutting Licences, etc.	Number.	Area covered.	
Timber	No concessions granted, only few licences to fell trees. 60 acres of hevea being worked. The gum copal forests were tapped. 167 licences for families to tap being issued. The gum will be marketed in 1928.		The timber industry, a very small one, is chiefly carried on by the native sawyers and canoe makers who work in unreserved forests over which the Government have no control.
Rubber			From the reserved forests, most of which at present are rather inaccessible, no large supplies of timber can be obtained. Unless a saw-mill is erected suitable for breaking down large logs no great development of the industry is possible.

Angel	Not ascertainable.	1d. to 3d. each	Not ascertainable.	Fish abounds in the river Rokelle: but the catches are irregular owing to the fact that only surf boats with drag nets are used in connexion with the industry. In various parts around Freetown, where there are tidal rivers, a fair quantity of fish is caught by setting traps with galvanized wire netting. Trammel nets have also been tried but unsuccessfully, although a kind of net made locally is used in some portions of the Southern Province in the same way as trammel nets.

Industrial Establishment Manufactories.

Industry.	Number of Establishment or Manufactories.	Number of Persons employed.	Cost of Raw Materials used.	Output during the Year.	
				Quantity.	Net selling value at factory or works.

There are no manufactures in the Colony or Protectorate. Simple articles for local use are made, the more important being baskets, boats and canoes, boots, shoes, sandals, coco-nut oil, cotton cloths, coarse dyestuffs (principally indigo), fishing-nets, seines, furniture, ground-nut oil, hammocks (cloth and grass), leather, building lime made from oyster shells, mats, palm oil, pottery, ropes and fishing lines, soap. The Military authorities have an ice and mineral water factory at Freetown.

Summary of Industrial Development.

There are no developments in the agricultural, forestal, fishing, mining and other industries of the Colony during the year, except that a beginning was made in the establishment, by government, of a 2,000 acre oil-palm plantation on commercial lines. Three hundred acres were planted in 1927. The reservation of the remaining virgin forest areas has been proceeded with. The total area of protected forest now amounts to 621.35 square miles.

COLONY.		PROTECTORATE.	
<p>Freetown. The roads of the capital of the Colony are for the most part wide, well laid out, and drained. Of the total mileage open for traffic, approximately thirteen miles have been metalled with laterite, of which about seven have been drained on modern lines. The main arterial roads are in general use for motor traffic and the majority of the more important streets are negotiable.</p>	50	<p>The roads in the Protectorate are divided into three classes, viz.—first, second and third.</p> <p>First-class roads are of a general width of 16 feet with permanent bridges. Second-class roads are of a width of 10 feet with temporary bridges only: but in most cases, they are being brought up to the same width as first-class roads. Third-class roads are intended only as hammock roads, and are constructed and maintained by the local chiefs.</p>	
<p>Peninsula. The majority of the roads of the peninsula are unmetalled earth roads, narrow and with steep gradients, while most of the bridges are suitable for foot traffic only.</p>	180	<p>All roads shown in Schedule A are open to motor traffic except that there is one unbridged tidal creek on Moyamba-Sembeluz road about half-mile from Sembeluz.</p> <p>There are three ferries on the Bo-Pujehun road on which boats are used capable of taking cars and unloaded lorries.</p>	
<p>The following first-class roads, provided with permanent bridges, and which have been widened, drained and surfaced with laterite, are now open for motor traffic :—</p>		<p>Of the roads under construction earthworks are completed on the Bandajuma-Gandorhun road and on the Blama-Kenema-Hangha road and these roads are at present being bridged: of the remaining roads under construction earthwork and bridging are in hand.</p> <p>The second-class roads which have been constructed are intended for motor traffic later.</p> <p>These roads are mainly the old third-class roads which have been widened by the chiefs with little or no assistance from Government. The third-class roads also have been constructed and are maintained for foot traffic by the chiefs concerned.</p>
